## Chest X-Rays To Start In County Next Tuesday

One Mobile Unit To Make Tests Exclusively In Glades Area

Anyone who suspects that all may not be well with his chest should certainly take advantage of the forthcoming Mass Chest X-ray survey which begins next week in Palm Beach County, says Emmett Roberts, chairman of arrangements here. Of two mobile x-ray units will be in operation during the five week survey from Nov. 18 through Dec. 23, one will spend most of the time in the Glades area, the other will go from Jupiter down the coast to Boca Raton. Two stationary x-ray units will remain in West Palm Beach. All four of the units are being brought in by the State Board of Health.

The mass survey is sponsored by the County and West Palm Beach Health Departments, and the Palm Beach County Tuberculosis Commission.

(Continued on Page 8)

## JUNIOR RED CROSS ELECTIONS OFFICERS

Belle Glade Junior Red Cross elected officers at their first meeting Nov. 3 at the high school. They were: Jane Norris, president; Don Flich, vice president; Douglas Lee, secretary-treasurer; Jane Morris, reporter.

Junior Red Cross representatives are: 9th grade, Connie Kelley; Milton Compton, John Paul Jones and Mary Oliver; 10th grade Douglas Lee and Frances Sloan; 11th grade Jane Norris, Jane Morris and Douglas Lee; 12th grade, Don Flich, Dorothy Kidder, David Weiman, and Esther Friedheim.

## State Chamber To Hold Annual Meet In Jax Next Week

The regular annual meeting of the Florida State Chamber of Commerce will be held at the George Washington Hotel beginning Monday, the 17th and running thru the 19th, at which time reports of all committees will be heard.

Of particular interest to many Glades folks is the report of the Flood and Water Control Committee headed by Luther Jones. A meeting of the Committee held in Orlando in September drew an outstanding group of political bigwigs from Washington, as well as Tallahassee. In addition, prominent business and public figures demonstrated a deep interest in the effort of this Committee to make its effective influence felt for all water control projects through the state.

More particular interest is centered in the effort of the Committee to make its "burry" attitude on the part of Florida legislative groups, as well as the Congressional delegation in Washington. The District engineers from Mobile and Jacksonville presented a "soused-up" program, but one which does not meet the need, according to the committee.

The unprecedented growth of the agricultural and industrial development, together with increased winter residents, make it imperative that the schedule be shortened by half. These recommendations are being made by Chairman Jones from his committee to the State parent group on Monday.

## BEAN BOWL CLASSIC DRAWS 1,500 FANS

A colorful parade of floats with costumed girls and bathing beauties went through Belle Glade last Thursday afternoon as a prelude to the Bean Bowl Classic, Negro football game sponsored here annually by the Glades Club. The Everglades Vocational High School band high-stepped at the head of the parade, which ended at Memorial Field, where later in the evening the EVHS "Bobcats" lost to the Delray Carver High "Eagles" by the narrow score of 7-6.

First touchdown of the evening came when Lester Baker of the Eagles, went over the line for a score. The extra point, kicked by Tucker, settled the game against the "Bobcats," who scored when Lester Tillman carried the ball for their lone touchdown. The Bobcats, however, failed to make the extra point.

About 1,500 spectators attended the game.

## Walk Home From Fast Boat Ride

Walter Cobb, Jr., and his brother-in-law, David White, South Bay, took a trip into the river canal at a point near the Serrano Farm, they took off in their winged seaplane and the word that they would return before dark.

Believes, however, did not begin to be seriously alarmed until about 11 pm, when Chief R. C. White induced H. W. Lowery and F. W. Kelley to make an airplane search for the two. But no sign of the missing men was given by the searchers, and the airplane was standing by for a seaplane search as soon as daylight came.

Cobb and White walked in at 5:15 Monday morning, having waded, walked, and pushed their way on foot through the flooded swamps, mud, and water. They said the engine had failed, and they had abandoned the boat and started walking home about 5 o'clock the previous afternoon. They estimated the craft was about ten miles out in the Glades. The return journey was tough, the two admitted, with mud and water up to their arm pits in places, and mosquitoes ferocious all the way home.

## County Cattleman To Hold Meeting Next Tuesday Eve

The election of officers and a discussion of current business will preoccupy the County Cattleman Association when they meet next Tuesday, Nov. 18 at the Livestock Market at 7:45 pm. According to Joe Tom Boynton, president, and H. L. Speer, secretary-treasurer, "If the weather is damp and cold, with a mega northwest blowing," the meeting will promptly quit the livestock market and use another meeting hall. "If the weather is nice, we'll stay at the market," they say. "But Nov. 1, recently as a second issue in the Army. He was

presented gold bars at graduation ceremonies of the Signal Corps Officers Candidate Department class.

The Army commission awarded Lloyd along with 33 other officer candidates, climaxed twenty-two weeks of intensive classroom and field instruction. During the rigid course, general military and leadership training emphasis on operation and maintenance of Signal Corps communications equipment, were stressed. Prior to OCS Lieutenant Lloyd was assigned at Fort Monmouth, N. J. Born in Okeechobee, Fla., Lieutenant Lloyd was graduated from Southwestern Louisiana Institute. He entered Army service Feb. 1, 1942.

## NEWS OF GLADES BOYS AND GIRLS IN THE SERVICE

Herbert Lloyd, son of N. D. Lloyd, Belle Glade, received his commission at Fort Monmouth since Signal Corps officer training opened there in the Army. He was

## Bids On L-7, Vital Protection For East Shore Of Lake Due On Saturday

The District office of the U. S. Engineer in Jacksonville will receive bids on Saturday the 15th for the construction of approximately fifteen and a half miles of dike (L-7) which closes the protective works for the communities and farm lands lying along the eastern shores of Lake Okeechobee, from flood waters of the pine lands to the north.

An important feature of this contract, it is expected, will be the saving of approximately half of the original estimated cost due to the change in design and method of construction. Stabilization of the muck is something long dreamed of by engineers planning roads, railroads and dikes. Pat Patterson came as near as anyone when he mixed sand with muck for railroad beds and local drainage ditches and canal away from the railroad bed.

The construction of the Coast-line railroad to the Okeelanta Sugar mill was made more difficult originally by removing material from a canal or borrow pit close to the road bed.

The Engineers are keeping the borrow pit some 300 feet from the finished dike and have a method of compacting the muck to keep it from creeping. The drawing of this typical dike is explained in another place in this Herald.

The engineers of the Central & Southern Florida District and the U. S. Engineers are keeping this for innovation in dike construction in the muck lands. Work is expected to be begun on this work within the calendar year and approximately one-third of it is provided for minimum, for completion in the '53 fiscal year ending June 30th, 1953.

L-1, and possibly L-2 are next on the agenda for letting, as bids have been called for L-1 for December 3rd.

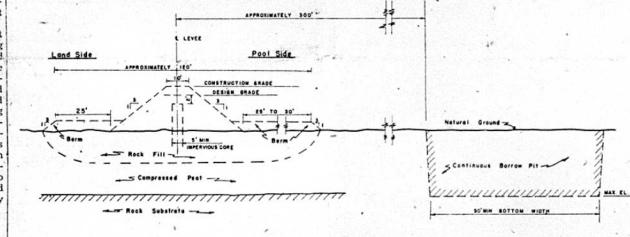

When Governor Broward became interested in draining the Everglades and even when Randolph Hill and other engineers were definitely establishing the fact that muck was 20 feet deep in places, it was known that flood waters from the pine lands as far north as Indianland and Ft. Drum and from around LaBelle to the west, spilled into and thru the Glades on their way to tide-water.

Canals, and roads built by farmers have held back and diverted these flood waters. These annual flood waters are recognized by the U. S. Corps of Engineers and our own Central & Southern Florida Flood Control engineers as prime hazards the correction of which has the highest priority for the agricultural area.

L-8, the dike originating in the highlands at the southeast corner of the Port Mayaca lands and joining the Lake Okeechobee dike just north of Sandcut, has its southern terminus two miles east of Twenty-Mile Bend road. The eastern rim of this conservation area is diked from West Palm Canal, meandering

(Continued on Page 4)

## MONEY SAVING INNOVATION IN DIKE BUILDING ON MUCK LANDS

Creeping muck under roadways has proven expensive in the Glades, as evidenced by many roadways, especially along side of canals and dikes. Engineer H. V. Patterson built roads thru the Glades muck lands with the muck for stabilization and found that where the borrow pits were kept away from the road, the muck was stabilized and the road was built on a firm base.

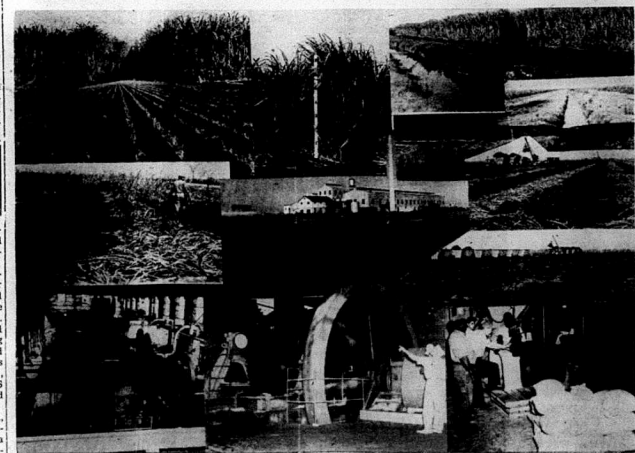

The "improvement" cost has the advantage as a step for water, as well as the benefit of stabilizing effect on the entire muck. The muck is stabilized and the road is built on a firm base.

Previous plans called for "rock-rock" construction.

## JUNIORS PLAN BEACH PICNIC

About 30 high school juniors in Mr. Forrest Raven's home-room will go on a class party to Juno Beach next Saturday, Nov. 15. Leaving on a truck about 4 pm, the group plan to return about 10 pm. A hamburger fry on the beach will stoke the hungry during the picnic. Chaperones will be Mr. and Mrs. Norris, Mr. Raven, and Mr. Single.

## FROM SEEDING TO SACKS—CANE SUGAR PRODUCTION AT OKEELANTA

Preparation for seeding—cutting, loading, crushing, and squeezing of cane stalks—long way towards getting the generous amount of the background and the bright industrial in the top row of pictures. The cane stalks are cut into sections and loaded into the mill. The cane stalks are then crushed and squeezed to extract the juice. The juice is then boiled and crystallized to produce the final product.

## Rehabilitated Okeelanta Begins Potential Record Production In Cane Sugar

### FLORIDA PARASITE TO CONTROL AUSSIE BUG

Dr. F. J. Simmonds, senior entomologist of the Commonwealth Institute of Biological Control, returned to Trinidad Nov. 10, after a week's collecting trip in Florida. Dr. Simmonds has been collecting a parasitic fly which his agency will ship to Australia, where they will be released to control the green stink bug. While here, Dr. Simmonds made his headquarters at the Everglades Experiment Station.

### Increased Plantings With New And Additional Machinery Add To Capacity

After a busy summer re-planting and installing new equipment to increase its capacity 60 percent over last year, Okeelanta Sugar Company last Saturday started on the biggest grinding season of its career. Last year, in a 168-day season, which started Nov. 17 and ended March 2, Okeelanta ground 9,275 tons of cane and produced 7,245 tons of refined white sugar. This year, according to the company's general manager, the new mill owners expect to process almost double the amount, or 180,000 tons, and from it, to produce about 14,500 tons of raw sugar and 1,000,000 gallons of black strap molasses for cattle feed.

## Burning Start For Barbecue

A barbecue for city employees got off literally to a roaring start last Saturday morning, when the Elks barbecue pit where the meat was being prepared, caught fire. A fire broke out at 8 o'clock am, and the big fire truck was called on to put out the blaze. Clarence Thrope, water works supervisor, who was head chef for the occasion, said the fire started when he attempted to burn some blackened grease off the grate before proceeding with the chicken and pork barbecue for the city picnic. Flames burst out of the control, blazed away towards the roof of the pit, which caught fire instantly. Thrope, president for help, and 10 firemen and volunteers rushed out to extinguish the blaze. Afterwards, (Continued on Page 4)

## PLANT SALE SET FOR THURSDAY AND FRIDAY

Pahokee-Canal Plant Garden Club has scheduled a plant sale for Nov. 20 and 21, in front of B. Elliott's Ford agency, Pahokee. Doughnuts and hot coffee will be served at the sale, which will feature, in addition to the plants, copies of Tropical Gardens Magazine, sold by the Ixora Circle; fruitcake, Hibiscus Circle; and handwork, Garden Circle, according to Mrs. Leo Maxwell, president, and Mrs. R. J. Schroder, publicity chairman.

## EXPERT WILL TALK ABOUT BUGS AND OTHER CRITTERS

"Parasites and predators" and their role in agriculture will be the topic discussed by W. G. Genung, assistant entomologist of the Experiment Station, in a broadcast over WSWN tomorrow at 11:15 am. Kilgore Steel Company is the sponsor.

## Press Group Meet At Silver Springs

Russell Kay, columnist of "Tom Lute To Classy" fame, was voted honorary lifetime membership in the Florida Press Association at the semi-annual conference of the Association, which convened at Silver Springs Nov. 7-9. The convention also chose Fred Fitzgerald, publisher of the Daytona Beach Observer, as its president, and Albert Harman, publisher of the Riviera Times, Coral Gables, as vice president.

Representatives from weekly newspapers all over Florida were present at the three-day meeting.

Discussions included tax questions, editorial matters, advertising rates, and report of summer activities.

Members to the convention were Ray, Davidson and Ray, owners of Silver Springs. Entertainment included cocktail parties, at which Hahn Race Course, US Brewers Foundation, and American Dog Track Operators Association were hosts; excursions in glass-bottomed boats along the Silver River, and a visit to Ross Allen's Reptile Institute. Attending from the Belle Glade Herald were C. J. Aspery, Mrs. Aspery accompanied her husband to the convention. At the annual banquet Saturday night, Russell Kay was master of ceremonies.

## Green Thumbs Hold District Meeting

The dividing of the Sixth District into two separate districts and a motion to ask authorities to safeguard the public from cobra snakes escaping from captivity were two of the topics considered at the sixth annual meeting of the Sixth District of the Florida Federation of Garden Clubs held last Saturday at the George Washington Hotel, West Palm Beach, with Mrs. Ivan L. Van Horn, Belle Glade, 8th district director, presiding. A resolution was adopted asking the State convention at Miami, April 9 to divide the district as follows: District 9, to be composed of Indian River, Okeechobee, Loxley, Martin, Palm Beach and Hendry Counties. (Continued on Page 5)

## PAR-TEE LINE

Country Club of the Everglades

Local Ladies will take on the Delray team here Nov. 17.

After the high waters, the golf course is in fine shape and the second round matches of the Everglades Amateur Championship must be completed by this Monday.

MEMBER  
FLORIDA PRESS  
ASSOCIATIONA FEW FACTS ABOUT MONEY AND OUR  
BENEFACITOR—THE UNITED STATES  
SUGAR CORPORATION

An Editorial

By Edgar Pennington Young  
Industry is the backbone of the Nation.  
Without industry we perish.  
Elbert Hubbard used to say that every great and successful business institution is but the reflection of a single man.  
He spoke the truth.  
The Sugar Company is but the reflection of the genius of its Chairman and Owner, Mr. Charles S. Mott. Official of General Motors which is owned by the Du Ponts.  
I have known every important Du Pont for the past fifty years. No finer men ever walked this earth. What they have done for Wilmington and Delaware history will take care of. Our Benefactor, Mr. Mott, is precisely the same type.  
We should honor and respect such men and such institutions. Our Socialist Government is more concerned with the welfare of Communist Radicals than the protection and advancement of legitimate American Business.  
If General Eisenhower fails us it will be a sorry day for America.  
May God give him the courage to purge the filthy mess at Washington.

The United States Sugar Corporation played a vital part in the early struggle to establish Flood Control. They bought thousands of acres.  
Unless the Communistic program to soak the rich is halted we are headed for trouble.  
A wicked and Russian-inspired lying propaganda to create contempt for Capitalism has been broadcast within these United States and has been swallowed hook, line and sinker, by many who imagine themselves to be intelligent.  
No Nation can prosper without Capitalism.  
Capitalism built our Railroads; promoted and established practically all Business and built all our Towns and Cities.  
Without Capitalism our Country would be a Wilderness.  
Had it not been for the Capital of a great and courageous man, Mr. Charles S. Mott, there would be no United States Sugar Corporation and the Glades today would not be as far advanced as it is.

Capitalists risk their Millions in ventures they hope will succeed. At times they endure heavy losses but no one hears them when they whine about it.  
Capital in the right hands is a blessing. In wrong hands it is a curse.  
So long as Wall Street remained under the control of AMERICAN Capitalism we progressed and had nothing to fear. But when Wall Street was taken over by FOREIGN International Capitalism we began to regress. To be invaded by Communists; to be assaulted by disastrous Unions; to be dragged into Foreign Wars not of our own making; to go forth like an Ass in the vain attempt to rescue the Universe and, finally, to be induced by Traitors to pour our Billions into the pockets of Foreigners whose one and only interest in us is to play us for a Sucker.

The objective of International Wall Street is to rule the World. There are two ways to destroy a Nation. One is by Revolution. The other is to bankrupt the Nation. Russia was taken over by Revolution. America is now being taken over by the Bankrupt method.  
Our National debt totals almost Two Hundred Billions. Two Hundred Billions is twenty thousand millions. It is doubtful if America would bring twenty thousand millions if put up on the Auction Block.  
Every President of the United States from George Washington to Woodrow Wilson was a strict isolationist. The downfall of America dates from the very day glibbly Americans began to swallow the poison of Internationalism.  
If Democrats of America, who are true Americans, realized that the Democratic Party of Thomas Jefferson has been murdered; if dead and buried; and no longer exists; that it has been taken over by Foreign International Wall Street, they would one and all resign and form a new party with such a name as "The American Party".

Whistle-stop Harry went gadding about the Country shouting that the Republican Party is a Wall Street Party. So it is and always has been.  
But what Harry failed to tell us is that the Republican Party was formerly the AMERICAN Wall Street Party and that the New Deal Party is the Party of Foreign INTERNATIONAL Wall Street—all of which we know very well.  
What little is left of AMERICAN Wall Street has pennies where INTERNATIONAL Wall Street has Millions.  
The plain truth is no Political Party can exist without plenty of Financing. It all depends on what kind of folks do the financing.  
Unless we rescue our Government from Foreign Internationalism we are doomed.

Our Currency is no longer issued and regulated by Congress as provided in the Constitution, by the so-called "Federal Reserve Board" which is controlled by a FOREIGN privately owned Wall Street International Bank.  
As a result our Currency is continuously deflated. Continued and increasing Deflation is responsible for every Panic.  
Our Banks no longer buy money from the United States Government, but from the Federal Reserve Bank. As a result the Government is forced to issue bonds to finance its operations.  
The Banks are not to blame for what is at the mercy of the so-called Federal Reserve Board.  
Inflation, as the term is used within Financial Circles has nothing whatever to do with fair raising wages and then prices—as our silly newspapers and so-called "Statesmen" continuously proclaim. That is purely a matter of Economics.  
Inflation is to increase the issue of the volume of Currency to meet the existing demand.

The exact opposite of Inflation is Deflation.  
Our Currency is being deliberately and continuously deflated. That is why Banks, in these unhappy days, have to be so careful in loaning money. Their supply is limited. They simply have not got it to loan.  
Remember the days when, if our reputation was good, we could borrow money on our note?  
That day will never return until the issuing of our Currency is returned to where our Forefathers placed it,—to the Congress of the United States.

Our wise Forefathers gave Congress this exclusive right to prevent our Currency from being privately manipulated,—the very thing that has come to pass.  
One demand after another has been made upon Congress to restore the issuing of our Currency to where our Forefathers designated it. Each and every such demand has been met with a deaf and dumb silence.

There is little hope for America until Congress has the courage and patriotism to deal with this vital matter. Instead, Congress continues its senseless chatter about "Inflation".  
Hearken to the words of the great Thomas Jefferson: "Whoever controls the issuing of the Currency CONTROLS THE NATION."

Let it be noted Mr. Mott did not name the Sugar Company "THE INTERNATIONAL" but the "UNITED STATES Sugar Corporation."

We should always maintain a sense of gratitude to Mr. Mott; to President Charles E. Weatherall; to Executive Vice President Harry T. Vaughn, and their Associates for all they have done in the upbuilding of the Glades.

## TO THE VICTOR BELONGS THE SPOILS?

An Editorial

By Luther Jones

The American people won the election; Ike and Mamie won a personal victory; Harry and what he stands for lost and the Republicans, as such, didn't win!  
Thirty-nine states gave Ike a majority and 510,000 more had voted for Ike instead of for Adlai only three states would have given what seems to be a Democratic win.  
All populous centers went for Ike; therefore, it is quite evident that labor did not follow its leaders' dictum to vote for Stevenson.

There were 435 Congressmen elected and 32 U. S. Senators, with the Republicans now worrying about organizing each of the ones on account of the narrow margins the people didn't elect didn't elect Congressmen and Senators according to whether they are democratic or republican.

Bob Taft and Ed Dewey like to think they were necessary to Ike's victory, and the Pennsylvania boys are patting themselves on the back. All three states could be transferred into the Democratic column, and Ike would still be President.  
So, Ike owes the great deal to those independent Americans who voted the margin of victory, both democratic and republican, and should choose his key men with that in mind.

Has about it, Ike?

WATER UNDER  
WOOD ESTATES

Subdivision developers will have to toe the line in the future if they expect to get approval for their proposed plans from the Palm Beach County Commission.  
In recent weeks, heavy rains have caused the commission of help to be swamped with calls for relief from property owners who have invested in lowlands, only to find their property under water when it rains.

Commissioner Lake Lytal, reporting on a recent meeting of the State Association of County Officials, said that the high water problems are a common one among a large number of the state's county boards and in these other county's, approval of proposed subdivision plans has in many cases been denied because developers fail to provide adequate drainage facilities.

Lytal said that he was not in favor of giving approval to every proposed subdivision plan unless adequate drainage facilities were provided to protect the home owner.  
His view was shared by the other members of the commission. He explained that the commission is without authority to assume responsibility for drainage and, in fact, is in private ownership.

The board was advised by County Attorney Harry Johnston that it had the power to turn down approval on questionable plans under public health and sanitation statutes.  
At the suggestion of Commissioner Paul Bardin and Commissioner Herb Evans, the board instructed its attorney to advise all engineers and real estate representatives in the county that in the future no plans will be approved "where drainage is not acceptable."

The board also invited any prospective buyer to sit down with members of the commission and learn the county's responsibilities in connection with drainage.

## **GRABERS PRAISE COOLING UNIT**

A new, improved Thermoseal refrigeration unit has been installed in vehicles operated by Graber & Son, according to J. Norris and Wm. Graber, owners of the company.

The newly-equipped vehicles are being used to haul vegetables from the area immediately to the territory of Belle Glade to New York and all points North.

The new units, manufactured by U. S. Thermo Control Company, Minneapolis, which produced freezing equipment for American troops in the Pacific are during World War II, are fully automatic operation. A simple twist of a dial and the truck driver can set and maintain any desired temperature within the truck regardless of outside weather.

The owners have agreed that these new vehicles have increased the efficiency of their service and have eliminated expense in perishable cargoes entirely.

JUST WHAT WE ALWAYS SAID

It costs more to handle food after it is produced than it does to produce it, according to a research department of the Florida Farm Bureau.

The Bureau points out that the farmer's share of the consumer's food dollar has shrunk to 48 cents, while the rest of the dollar goes to the cost of getting food from the farmer to the consumer's table has risen to 52 cents.

MOTOR COURTS ON INCREASE

More than four thousand motor courts throughout Florida are currently open to visitors and travelers.

Far-exceeding the growth of other types of accommodations in Florida, the number of motor courts and motels increased 142 percent during the past five years, the Florida State Chamber of Commerce reported recently. The total now stands at 4,124 establishments, with 65,512 rooms.

First ranking county in Florida is Pinellas with 15 establishments. Volusia has 330, Duval County 271, Palm Beach County 261, and Broward has 212.

MORE AND MORE TO GET LESS AND LESS

Area motorists have been playing about with "dem parking" apparatus, and have learned how to parlay a penny up to a dime's worth of money as a result, city commission is contemplating the installation of new automatic parking meters. Cost of the proposed gadgets would be \$18 per meter.

COL. BILL YOUNG GOES TO FORT LEAVENWORTH FOR SPECIAL CLASSES

There're not too many officers wearing the "Chicken" insignia on their shoulders around this part of the country, and Belle Glade's Colonel William C. Young, Jr., USA, has been assigned early coming to receive officers of that rank.

The Colonel will leave Saturday for Fort Leavenworth, Kansas for a course of instruction in the Command and General Staff College to prepare himself for an instructor. His tour of duty as Instructor at Fort Benning, Ga. will begin on February 15 and continue through March 8.

Fort Benning courses are must with all infantry officers before military education is completed. All ranks from non-coms to general officers are sent there for special courses.

CITY FATHERS DEAL IN WHEELS

Bids from two Belle Glade automobile dealers were opened at City Hall on Monday night, when the City Commission at a special called meeting voted to trade in a Chevrolet police car to a Buick.

Replacing it with a new 8-cylinder Ford sedan. Cost to the city, \$415. However, the situation was smoothed immediately when the city decided to buy Chevrolet's half-ton pickup truck for \$1425, instead of Belle Glade Motor Ford for \$1453.79, so both dealers went home happy. Presumably unhappy was Bert Roemer Motors, whose bid was not even opened, as Roemer is not a city licensed dealer according to the bid-call specification.

When Commissioners opened bids on several city-owned automotive equipment, Charlie's Standard Service Station, Main Street, was the highest bidder. Successful bidders on gassing, oiling, greasing, and repairing city vehicles. The Francis L. Harris and Parrish Bros., who lost out by a slight margin.

## **Golden Rams To Buck Seacrest Here Tonight**

By Jim Williams

After last Friday's victory over the Lake Worth team, the Belle Glade High grid men intend to stay on the victory path for the remainder of the season.

To tonight's game here with Seacrest, they will put all the punch they have.

At the same time, Seacrest High will be trying to regain their winning ways, after plucking victory from the first four games and losing the last three in a row.

This game shapes up as one of the best of the season, and will be jam-packed with hard running, blocking, and tackling. Both teams sport similar win records, and this game can give either team a good record for the season.

A Belle Glade win over Seacrest and a Clewiston win over Lake Worth would leave the Rams in second place in the South Conference standings.

COUPS AND SMILES AT LYONS MEETING

"Rock A Bye Baby," sang the Lions Club this week when the Lions Club introduced a "brand new Lioness, Miss Rita Payne," to the club.

Farrell, FPL home service representative was in charge, assisted by Mrs. Lettie Pierce.

Mrs. B. W. Waddell was winner of the first door prize, and automatic toaster. Other prizes included a cake, Mrs. V. J. Jones, muffs, and Mrs. Ruth Burkett walked away with the last.

BPW CLUB TO HOLD DISTRICT MEETING

The 8th district meeting of the Business and Professional Women's Club will be held Sunday, Nov. 16, at the Lions Club in Pahokee, it is announced by Mrs. J. H. Shortt.

Business at 11 a. m.; Mrs. Doris Sager, district director, will preside over a board meeting.

At 1:30, and luncheon will be served at 12:30. Afternoon business session begins at 1:30 p. m. Mrs. Ruth D. Humphries will preside.

HOSPITAL AUXILIARY ELECTION PLANS

Plans were made for the election and installation of officers at last Monday's meeting of the Hospital Auxiliary at the local hospital. These two important events will take place on the first Monday of the coming year, at the Community Club house.

Monday's meeting was primarily a work session, followed by a brief business discussion. Officers elected were: Mrs. C. E. Harrison, Royal, Mrs. C. Dooley, Mrs. Thomas Bregger, Mrs. John Gledhill, Mrs. Vernice, Mrs. Frank Holston, and the president, Mrs. C. E. Maynard.

CUB SCOUTS GET AWARDS

At last Friday afternoon's meeting of Cub Scout Pack number 22, held at the Methodist Church, awards were presented to several of the boys. Receiving Bob Davis were Richard Lee, Roger P. Rogers, and Robert C. Moore, Charles W. Edie, Whitlock, Young, Greaves, Todd, and Robert Huebner, Wayne Motors and Ed Nestor.

Be badges were awarded to Danny Hayes and Danny Barber, while Alvin Schlechter received the Silver Arrow award. Also receiving the Wolf badge was Cary Baldwin. The Silver arrow was presented to Darryl Wood.

The awards were presented by Mrs. W. J. Norris, Pack father. He also presided over the meeting.

A skit entitled "Carrying the Mail" was presented by several members of Mrs. S. A. Knight's den.

The meeting of the pack will be held the first Friday night of the month at 7:30 p. m. at the Community Methodist church.

JUNIOR GARDENERS TO BEAUTIFY SCHOOL THU

Twenty-five youthful members were organized into the Junior Garden Club at an initial meeting Monday afternoon at 2:30, according to Mrs. Irvin Zumpf, chairman.

Club project for the year will be to beautify the triangle in front of the old high school building. Last week 150 geraniums donated by W. P. Risk were planted there; future plans call for marigolds and zinnias to carry out the yellow and blue school colors.

Mrs. Luther Jones, guest speaker on Monday, described Thanksgiving table arrangements. She gave cockatoos, gallinules, bunnies, and Florida orchids, and cucumbers to the young gardeners for plantings.

The following officers were elected at the meeting: Kenneth McDonald, president; Judy

Farmer, vice president; Julie Williams, secretary; Linda Conner, treasurer.

Committee appointments included Larry Berryhough, horticulture; flower show, Nancy Bass; awards, Dickie Dapere; bills, Bill Haas; and program, Beverly Baker.

STUDENT LOAN FUND DISCUSSED

Mrs. Ruby Bailey explained the purpose and the manner of allocation of the Student Loan Fund in a brief talk to Eastern Star members at their last regular business meeting, Nov. 6 at Benevolent Hall.

Also as part of the program which followed the business session Mrs. Mabel Lutz and Mrs. Ray Whitlock presented a skit honoring the Star Points, and to each presented a plaque of five gilt-wrapped good will bulbs.

Mrs. Gladys Williams, worthy matron, presided.

At the conclusion of the meeting Mrs. and Mrs. Joe Cherry served sandwiches and coffee and the members and guests present.

MATHIS-BOE COOKING SCHOOL

A demonstration of the "Wonder of Mathis-Boe" range was given at Mathis-Boe's cooking school last Wednesday afternoon.

## **Master Calendar Of Social Events Suggested Locally**

Anyone who has ever wanted to go to a barbecue when a P.T.A. meeting was scheduled or thought wistfully of a reception when a lodge meeting had precedence, will be happy to know that "A master hand" will soon start the job of keeping our tangled social calendar straight.

"Something's just gotta be done," said the representatives of the civic organizations. "Why not a master calendar?" said others. "Check in before you plan."

Results: It adds up to a request to the Herald to start publishing each week a "Calendar of Events." Coordinator of the calendar will be the Chamber of Commerce, Main Street. "A telephone call before you plan will save you disaster on the day," says Mrs. George Young, who will try to keep a steady finger on the pulse of local events.

Mrs. Young, in turn, will give the calendar to the Herald for publication.

"Another thing we need to do is coordinate the Thanksgiving baskets taken around by the church groups. Last year, there was a tremendous amount of food. People showed up with baskets for the needy, only to find that another group had been there before them."

## Outdoor Florida

By Herb Mosher

"How beautiful it is to do nothing and then just afterwards," is the message, attached to a photograph, showing a fisherman peacefully asleep beside a favorite stretch of fishing water. The photo was just received by this column. A fine decoration it is, too, for the wall of any office or living room! Reminds us of the old yarn about the Yankee who wanted to know how to tell the difference between a native and a log— "You just look and look, and if it moves it's a log," was one. Well, there's real comfort in these thoughts and observations in this crazy day of lost motion.

Just in case you thought it was unusually hot this past summer (1952)—you were right! Some special, exclusive figures have just come to this column from R. L. Anderson, head of the Weather Bureau, at Jacksonville, on this subject.

May, June, July and August (1952) were the hottest since 1915!

This is how the great weatherman puts it: "May, June, and August all averaged above normal, and only once since state records began in 1891 the 4-month period—May through August—averaged below than during this year." The one exception was the year 1915.

If any one got the idea we had a long summer, then listen to Westernman Anderson: "You impression that this is the longest summer on record, was fairly well taken up to September 1st. As a matter of fact, summer this year actually began in April when temperatures in the upper 80's and lower 90's became rather general over the state. State averages for September are not yet available. It is known, however, that they will be just about normal, whereas last September averaged 1.7 degrees above normal."

## WASHINGTON NEWS LETTER

From

WASHINGTON—I am going to talk a lot next year about the Presidential election. The election of 1952 is more important than any other in our history.

I am introducing legislation in January which will have the effect of putting the national election more firmly in the hands of the people. This is my legislative program. (2) Provide for a nationwide presidential nominating primary. (2) Revision of a system whereby popular vote of each state would count in total vote cast for a candidate for president. (3) Provide for an election in "off years" of successors to the president, in event of his death or disqualification.

with the vice president serving only until the next general election (4) Holding of the quadrennial election over a period of three months, instead of a single election day as at present.

Most people are familiar with my National Primary Bill which proposes selection of the party nominees by the people, instead of a handful of convention manipulators. Realized that this is the proposal to give the people representation in the Electoral College based on popular vote to each state, this would be a great step toward electing a president by direct vote without a majority vote.

My proposal to alter the vice president's role would bring the office of president closer to the people. All this now, the attention of the people is directed toward the presidential candidate and before accepting his under-study in a long time White House, he would be well to have a new look at him, hear his views and proposals, and give the people a chance to prove or disprove him for the bigger job. I think we would have been better off, under such conditions, in the past.

It is not too kind to many vice presidents who have stepped up to the plate as Executive responsibilities, am confident that we would have a great deal more to say if there were more than one day to cast ballots. I saw many very good lines in the record of polling places last Tuesday and I am sure that many were discouraged from voting by the results of the election.

Notes From Capitol Hill: One of the happy results of the public control of the Senate in the 83rd Congress will be the loss of several of my staff, who have been on "patrol" jobs. The rest of us will have to work that much harder to get the job done.

## Noted Latter Day Saints Leaders To Speak Tonight

The Church of Jesus Christ of Latter Day Saints will meet in quarterly conference tonight, 7:30 p. m. in West Palm Beach Chapel, 404 7th Street.

Two noted speakers, Milton R. Hunter, of Salt Lake City, Utah, and Peter J. Hicks, of Idaho, are scheduled to address church members.

Paul DeWitt, head of the First Council of the Seventy since 1945, is one of the seven men who direct the extensive missionary work of the Church. For 20 years prior to this, Dr.

SIX INITIATED INTO ELKS

In an impressive ceremony attended by more than 200 members and guests, Oct. 27, the following members were initiated into Belle Glade B.P.O. Elks Lodge 1716: Standing, left to right, in back row: C. T. Clark, W. H. Jenkins, J. H. Jenkins, D. Allen McCloud, Erel F. Mison, Howard Payne.

PETER J. RICKS

Hunter taught in western schools, the last one of these in the L.D.S. Institute of Religion at Utah State Agricultural College in Logan, Utah.

Dr. Hunter was born in Holden, Utah, in 1902. His grandparents were Mormon converts from Scotland who were among Utah's early pioneers. He was educated at Brigham Young University in Provo, Utah, and at the University of California, Berkeley.

Dr. Hunter lives in Salt Lake City, Utah. He is a member of the Church of Jesus Christ of Latter Day Saints.

MILTON R. HUNTER

City, is married, and has six children.

Peter J. Hicks has been president of the Church of Jesus Christ of Latter Day Saints since 1952. At the age of 20 he held a mission to the Northern States. He is now an ordained Bishop, and a Patriarch, and for 10 years was president of the Rexburg Stake of the Church.

President Hicks, who owns a 660-acre farm in Idaho, is a member of the present Idaho legislature. Active in Scout work, he holds the Silver Beaver award for his Scouting activities.

GREEN THUMBS

and District 10 to be composed of Monroe, Broward, Dade and Collier counties.

A motion was passed requesting Mrs. H. B. Swinglehurst of Stuart, co-director of district 10, to contact the proper authorities about legal measures that may be taken to insure against the escape of cobra snakes. The value of cobra venom to science was recognized by the group, but since cobra can survive and multiply under captivity in Florida, the members of the committee are urged to take precautions for safeguarding the public.

After the state officers presented their reports, the past district directors and members of the business committee were introduced to the audience.

Mrs. Porter Baldwin, West Palm Beach, was elected delegate and Mrs. George H. New-

## Check your coverage.

Many people carry "just a little" insurance just to ease their minds.

But insurance should really INSURE. In case of disaster, you want more than a log, say, a fifth enough or half enough to rebuild your house or pay off a damage suit or meet some other loss.

Many people forget that it would cost much more to replace their home and furnishings if they had a fire. Many people forget that they may be sued for perhaps tens of thousands of dollars if they kill or injure someone with their car. Many people carry too little liability insurance.

Don't be half safe. Be completely safe with the right American Fire policies.

### SOUTH BAY BEAN CITY LAKE HARBOR

Mrs. C. A. Thomas and Mrs. Lee Johnson were shopping in West Palm Beach this week.

Miss Evelyn Lee and Mrs. Major Lee of Cleveland attended the wedding of Miss Ann Slonaker and Mr. Pearce in Cleveland on Sunday.

Friends of Jim Henderson regret to learn of his serious illness at Belle Glade Memorial Hospital.

Mr. and Mrs. Broadfoot of Bartow are here, called by the illness of his father, J. A. Henderson.

Mr. and Mrs. L. F. Johnson and son David are making their home in West Palm Beach.

Miss Aileen Hemphill and Mrs. Frances Layfield acted as hostesses with school members of the local FFA for the District V Convention at Belle Glade Saturday.

Mr. and Mrs. Kenneth Keene of Hartford, Conn., and Mrs. Anna Keene of Orlando visited Mr. and Mrs. Leland G. Keene at Pahokee and friends in South Bay over the weekend. Mrs. Keene then returned to her school at Orlando, Kenneth and

wife proceeded to Miami to visit his brother and sister-in-law, Mr. and Mrs. Jack Keene.

Mrs. Clayton Waters, Mrs. W. Sullivan, Judy, Marian, Guy and Ray, Jr., have returned from Sanford where they took Mrs. Mary McCarron to spend the next two months with her brother, M. E. Selby.

Mrs. Eric D. Hartline has returned from a month's visit among relatives and friends at Round Mountain, Ala.

Mr. and Mrs. A. L. Gatlyn have returned from Lithuania where they were called by the death of his father, W. C. Gatlyn.

Laymond Hardy accompanied a group from the Everglades Experiment Station to St. Petersburg last week to attend the Horticultural Convention.

Mrs. O. B. Cook is a patient at St. Mary's Hospital in West Palm Beach.

C. A. Whitman, Sr. returned to Coral Gables Wednesday to take treatment.

Mrs. Mildred Challenor and Mrs. Anna Ouellette are attending the State Congress of Parents and Teachers at Lakeland this week.

Mr. and Mrs. Clayton Waters were hosts at dinner and an eve-

ning of canasta at their home Monday evening. Guests were Mr. and Mrs. John L. Sullivan and Marvin McDonald of Belle City, and Mrs. W. R. Sullivan.

Milton E. "Buster" Cooper entered Pratt General Hospital last week for surgical treatment for an ailment resulting from injuries sustained in the Italian Campaign in World War II.

Mrs. Phyllis Clark Bennett of Miami and sister Mrs. Katherine Clark Lathery of Venice visited Mrs. P. E. Goodbread Sunday as they were enroute to Miami.

Mrs. A. J. Williams, Mrs. Wm. Jeffries and Mrs. J. W. Anastasi motored to Fort Myers, the first of the week and brought Mrs. L. L. Simmons and granddaughter, Mary Lou Mott home from a visit with her father E. L. Elliott.

Mr. and Mrs. John A. Terasa, Johnny Jr. and Lema have returned from Playfair, Minn. to spend the winter in the Glades.

Mrs. B. M. Fender returned Monday to her post as manager of the snack bar at Pioneer Growers in Belle Glade.

Mrs. and Mrs. C. S. Waters, Mr. and Mrs. John L. Evans and son John Brown Evans visited Mr. and Mrs. G. M. Waters, Sr. at Goodno Sunday.

Gloria Lopez had the misfortune to fall off a fence in her yard the last of the week and cut her chin, necessitating several stitches to close the wound.

Michael Brown, youngest son of Mr. and Mrs. J. L. Brown is a patient at the Belle Glade Memorial Hospital following minor surgery.

Miss Maxine Walker and Miss Marlene Walker of Miami visited relatives here over the weekend.

Mrs. Bessie Elder of Pittsburgh and a sister of E. W. McLeod are guests at the McLeod home in South Bay. Mrs. Elder is also visiting her son Philip McLeod and family in South Bay.

**WEIGHT REDUCTION IS MEETING TOPIC**

The Woman's Home Demonstration Club met at the South Bay Legion Hall on Thursday, Nov. 6.

The program presented by Miss Sara Horton was on the National Value of Food. Miss Horton emphasized the importance of keeping the weight balanced and discussed how to reduce safely.

Plans were laid for the annual Christmas Party to be held at the home of Mrs. John L. Evans.

in Bean City on Thursday, December 4, with Mrs. I. M. Davis, Mrs. Alice Lamoureux, Mrs. Norman Dalrymple and Mrs. Mary Waters assisting the hostesses with the program.

A nominating committee consisting of Mrs. H. C. Willis, Mrs. L. P. Roberts and Mrs. Eric D. Hartline was appointed for election at the next session.

It was decided to have one project for the year's programs, the project to be decided after a survey of the members.

Mrs. Dalrymple was hostess and served pineapple up-side-down cake and coffee to Miss Horton, Mrs. Royne Davis, Mrs. L. P. Roberts, Mrs. Eric D. Hartline, Mrs. Alice Lamoureux, Mrs. Clayton Waters and Mrs. John L. Evans.

**TWO LAKE HARBOR CLUBS TO MEET**

The Home Demonstration Club will have its regular meeting at the Methodist Church on Friday. Visitors welcome.

The P.T.A. will meet Tuesday at 8 o'clock at the school. Mr. and Mrs. Paul Slonaker, Canal Point, visited her parents.

Mr. and Mrs. Pope this week.

**TWO FROM MIAMI AT L.D.S. SCHOOL**

Grant Steed, supervisor of missionaries and Wilfred W. Salter, Miami, attended the Church of Jesus Christ of Latter Day Saints Sunday School last Sunday in the interests of the organization of a local missionary system.

They pointed out that there will be no more traveling orders after February and that only 8 missionaries are allocated to South Florida, making it necessary to recruit local missionaries.

**LEGION TO HOLD CANASTA PARTY**

The third canasta party to be sponsored by the American Legion will be the event of November 18 at the Legion Hall.

The first two parties have been very successful both from a social and a financial standpoint with 16 couples in attendance. The last one on election night was accompanied by a barbecue served by Earl Walker and his committee.

**GARDEN CLUB PLANS CHRISTMAS DINNER**

The South Bay Garden Club met Wednesday at the Legion Hall to plan their annual Christmas dinner.

Features of the meeting were a plant exchange between members and a contest of Thanksgiving table arrangements.

**SINGING SCHOOL HELD BY SOUTH BAY BAPTISTS**

A two weeks' singing school will be conducted at the South Bay Baptist Church by Flora B. Willis of Longwood. Mrs. Willis arrives Saturday and will organize two classes, one adult and one junior, to be held each evening during the fortnight.

The singing school is being sponsored by the church and is free to those who wish to avail themselves of the training, according to announcement of Mrs. W. M. Jeffries.

**CELEBRATE AT WIENER ROAST**

To celebrate an attendance of 50 in Sunday School the Lake Harbor Baptist Church had a wiener roast Thursday night. Coffee and cold drinks were also served.

After the children's fun was over and they had returned to their homes, a Baptist Brotherhood was formed. The pastor, Rev. Harold R. Harline presided. Officers were elected: Elbert Heister, president; J. E. Wood, vice-president; Raymond L. Wilder, secretary and treasurer. Meetings will be held monthly and new members cordially welcomed.

**IT'S NICE, IT'S NOT OBSOLETE**

Don't put the ice man on ice, said Florida dealers meeting for their 27th annual convention recently at the Floridian Hotel, Tampa.

Despite the fact that the refrigerator has made the ice man almost obsolete around the house, more ice is being sold in 1952 than in 1929 when the mechanical refrigerator dealt a hard blow to the industry. The reason seems to be that the ice man took a realistic look at the situation, put research and selling skill to work and crashed new markets.

They went after the food growing and distribution fields and proved that practically any vegetable can be brought to market with just-picked freshness if it is "hydro-cooled," or

bathed in ice-chilled water. In Florida, that means plenty of ice customers among producers and marketers of vegetables and fruit.

Ninety-nine per cent of all railroad refrigerator cars also use ice, with a refrigerator car using as much as ten tons of ice on a cross-country trip.

The ice industry has also found a widening market in grocery stores. Ice is used on fruits and vegetables in display cases, and poultry holds its freshness and "bloom" best if processed and displayed on ice. Next goal for the ice salesman is to make grocers "meat on ice" conscious. A layer of ice keeps meat cool from shrinking, spoiling or "draining."

A variety of commercial uses keeps the ice man busy. Ice plays a part in the making of chocolate, concrete, liquors, varnish, explosives, sausages, glue — and even in the manufacture of cigars. It serves medical purposes, too, as hospitals employ it as a local anesthetic, and whole blood is shipped in refrigerated boxes.

The ice man is stepping into the home with ice in processed forms — cubes, crushed and "sized." Special festive occasions bring the ice man with fancy variations on the product, including luxury items as ice-

carved swans and all-ice punch bowls.

If there is anything you want to know about fish or their habits, write the Marine Laboratory of the University of Miami, Coral Gables, Florida.

## "That Call"

**WAS WORTH A MILLION, SON!**

"What a grand surprise! I wasn't expecting you so soon. When you phoned from the station and said you were back, I could hardly believe it. And now you're really here. It's wonderful!"

Good news travels fast... especially by telephone. The usefulness of telephone service can be beyond price in moments of happiness as in moments of anxiety. When such moments come, you are thankful for the quick reassurance a telephone call can bring.

Day in and day out, your telephone proves its value in so many ways.

Today there are more than twice as many long distance calls as there were 10 years ago. Yet the price of telephone service has gone up less than most prices.

## GREAT GOING -any way you figure

LOCAL DELIVERED PRICE FOR THE NEW 1952 BUICK SPECIAL 2-door 6-passenger Special Sedan MODEL AID (Illustrated) \$2456.38

When better automobiles are built

**BUICK** WILL BUILD THEM

And when you put this total against the price of a Buick—you're going to say, "Man! That's great going all the way!"

Come in and see us today or tomorrow, won't you?

Equipment, accessories, trim and models are subject to change without notice.

Buick ride features that cost, literally, more than a million dollars to engineer.

Then there's style, there's room, there's visibility, there's handling ease—all part of your travel—all helping to make the difference between good going and great going.

But price is very much part of the picture, too—what you pay for what you get.

So when you add in the big horsepower rating you get in a Buick, plus the extra thrill and thrills of its Fireball performance...

When you measure the inches of room, count up the many hours of comfort through the years, check off things like durability and solid satisfaction and high trade-in value...

NUMBER ONE item on most anyone's list of automobile "musts" is power—the life and lift of your going.

In this Buick SPECIAL you get a valve-in-head high-compression Fireball 8 Engine that can pour out a wealth of the thrilling power you ever held rein on—more power per dollar than you'll find elsewhere.

Number Two is ride—the way you go—the comfort and steadiness and luxury of your travel.

Every Buick has big soft coil springs on each wheel to cushion your way—and an unyielding torque-tube that firms and steadies your ride. Yet these are just two of the fifteen

Two great television events: The TV Football Game of the Week every Saturday and Buick Circus Hour every fourth Tuesday.

## Too Late To Classify

By Russell Key  
Are you insured or do you just THINK you are insured? I don't know whether you have paid any attention to it or not, but if you read your newspapers you probably have noticed that damage suits no longer are for \$5,000 or \$10,000.

No sir, today, the injured party sues for \$25,000, \$50,000 or as high as \$150,000. And to make matters worse, juries and courts are inclined to favor the injured party and allow claims that a few years ago would have been considered exorbitant.

For many years I have carried liability insurance on my car, long before it was required by law. I thought I was safe when I carried a \$5 and 10 policy, but today any guy driving an automobile had better carry at least \$50,000 or he may wake up and find himself behind an eight ball that will take him the rest of his life to get clear of.

Thanks to the New Deal and the Fair Deal that have devalued the dollar to where it is

worth only 50c or less, folks who get hurt are inclined to go out for big dough. They can tend that a sprained ankle or stiff neck is worth at least \$25,000, and if they lose an arm or a leg, oh boy, look out.

Well, I have stepped up my liability insurance to \$50,000, not because I have that kind of money, but because I might get into a jam and have a judgment slapped against me for a lot more than I am actually worth.

Why should I care on account of they can't get blood out of a turnip. Well may they be can't, but they can sit back and take every dime I might happen to make the rest of my life the courts give them a judgment.

Maybe you noted that insurance rates on automobiles increased 52 percent. Any way you figure it, that's a lot of percent. You know insurance companies aren't in business for fun, they establish their rates on the basis of the claims they are called on to pay. When you and I and a lot of other dumb motorists are careless and allow the accident rate to go up by leaps and bounds, we can rest assured that insurance rates will

go up right along with them and properly so.

If motorists would use a little common sense and judgment and drive more carefully, the accident rate could be substantially reduced, and when that happens, our insurance rates will be reduced accordingly. But it looks like folks enjoy paying higher rates and instead of being more careful we are driving faster, ignoring traffic laws and carrying on to where anyone who ventures out on a highway takes his life in his hands.

The Florida Safety Council calls attention to the fact that the average automobile accident costs \$500 or more while the average injury costs from \$150 to \$200. When you consider that in the first six months of this year we had 456 fatalities, 15,900 injured, and recorded 61,360 accidents in Florida you can realize that the situation is serious.

Nobody is to blame for this appalling record but YOU, Mr. Motorist. The Safety Council, Highway Patrol and all the other agencies can scream their head off and warn you until the cows come home, but until you

actually wake up and do something about it yourself, the situation will get worse before it gets better.

And while we are on the subject of insurance, maybe you think you are protected with fire insurance on your house or household belongings. Better not take it for granted for you may have a fire and find you were underinsured about 60 or 75 percent.

Very few homes in the country today are fully insured, 90 percent of them are underinsured and if a fire occurred they could not claim anywhere near replacing their loss with the pitiful amount of insurance they would receive.

Your house, like mine, was probably insured away back when a dollar was a dollar and it had burned down then we would have been fully covered. But, brother, if it burned today with the dollar value where it is and construction costs where they are, you would find that your so-called \$5,000 house insured for \$5,000 couldn't replace it for \$10,000 or \$15,000.

Most of us are living in a fool's paradise. We just don't realize that today's dollar is worth half what it was a few years ago. We are blissfully sitting on a powder keg and waiting to have our little pink ears knocked down. Better check up on both your automobile and fire insurance before something happens and you lose your shirt.

**CINEMA' CHATTER**  
By Malcolm Millar  
Hello everybody! Judy Canova, who parlayed a singing career into a fabulous film career as "Queen of the Cowgirls," is one of the most interesting personalities in Hollywood. It was partly luck, partly hard work that was responsible for her success—but most of all, it was her talent. That Paul Whitman recognized and which, ultimately was to bring her world success as a screen star, too radio comedienne, and Queen of the Air for 1949. Judy, whose correct name is Juliette, was born in Starke, Florida, where she attended grade and high school. Although her family was financially well-off, Judy literally sang her way through school, working in clubs and on radio after school hours. Then came numerous professional engagements in Florida. Encouraged by local success, Judy, her sister and brother Zeke decided to try for the big time. Their New York City opportunity came when they were hired at a Greenwich Village night club, The Village Barn. Hillbilly songs and mountain music were just catching on at that time and they were an instantaneous hit. It was at this period that Whitman heard the Canova clan. He signed Judy for his New York show. In 1940, Herbert J. Yates, president of Republic Pictures, persuaded Judy to come to Hollywood to start a film career. Mirth-provoking Judy soon made motion picture history when "Scatterbrain" hit the public like an atom bomb. Although today her career still occupies most of her time, Judy is pretty much of a home-body in her off-work hours. She has a daughter, Juliette, known better as "Twenny," who makes her film debut with Mother in The "Wac from Walla Walla." See you at the movies... Mal.

**EVERGLADES VOCATIONAL**

The Science Club of Everglades Vocational High School was organized Monday, Oct. 27. Officers for this year, 1952-53, are as follows: President, Earl Shine; Vice Pres., Willie Reese; Secretary, Helen Allen; Asst. Sec'y, Vernell Limbin; Treasurer, Levi Nelson; Chaplain, Alice Humphrey; Sergeant-at-Arms, John T. Williams; Business Manager, Willie Griffin; Reporter, Roby L. Washington. Frank Coleman and Christine McCants were elected chairman of the social committee and project committee respectively. This club will hold its meetings every first and third Monday.

The N.H.A. of Everglades Vocational High School started out with great enthusiasm this year along with their sponsor, Mrs. E. B. Moore. The chapter has made plans and is anticipating better and more successful programs this year.

The Seventh Grade, sponsored by Mrs. E. B. Moore, was in charge of the assembly program Wednesday, November 3. Little Mae Wright was mistress of ceremonies. Rev. Penson, guest speaker, addressed the assembly on "The Value of a Hobby."

Under the direction of the Florida Forest Service, a Forestry Training Camp is held each year at Camp O'Leno State

where information should contact the nearest office of the Collector or Internal Revenue.

## SPRINGERS 80 YEARS MARRIED LAST SUNDAY

Many friends gathered at the home of Mr. and Mrs. Clarence Perry Springer last Sunday afternoon to honor them on their sixtieth wedding anniversary. Co-hostesses at the informal reception were their three daughters, Mrs. Ralph W. Kiddier, Mrs. Doyal Timmon and Mrs. N. T. Taylor.

Mr. Springer, age 82, and his wife, 81, both graduated from the Eaton Rapids High School, Eaton Rapids, Mich., and were married Nov. 8, 1872 with the Rev. J. P. Farmer officiating. Until his retirement in 1940, Mr. Springer was in business in Michigan.

In addition to their daughters, Mr. and Mrs. Springer have the following grandchildren: Dr. Florence Kiddier, Miss Mary Eleanor and Dorothy Kiddier, Mrs. Joe Tom Boynton, George and Barbara Wedgworth, Robert and Louise Taylor. Great grandchildren include John and Janis Kiddier, Bruce, Wayne and Cathy Boynton, Douglas, Deborah and Dennis Wedgworth.

Floral decorations at Sunday's party included a basket of both large and small yellow chrysanthemums and a bouquet of carnations.

The serving table was covered with a lace cloth.

A large square white iced cake and a punch bowl were at either end of the table. Mrs. Wedgworth and Mrs. Clarence Kiddier served.

Congratulatory messages were received from Mr. and Mrs. Robert Taylor; Gainesville; Miss Mary Eleanor Kiddier, Atlanta; Mr. Springer's sister, Mrs. E. E. Horner of Eaton Rapids, Mich.; Mrs. Charles Washburn, Grand Rapids, Mich., and Mrs. George F. Putnam, Goodrich, Mich.

Calling during the afternoon were the Rev. and Mrs. J. O. Jameson, Stuart; Mr. and Mrs. B. C. Edington, Lantana; Mrs. Davis, Lantana; Dr. and Mrs. V. D. Stone, West Palm Beach; and Mr. and Mrs. M. M. Robinson, Mrs. Charles L. Anderson, Mrs. Thomas Breger, Mr. and Mrs. George Royal, Mrs. P. C. Schoenfeld, Mr. and Mrs. Hugh Bratley, Mr. and Mrs. Herbert D. Beck, Mr. and Mrs. Ralph E. Freeman, Mr. and Mrs. P. C. Stevens, Mrs. D. B. Kemper, Mr. and Mrs. G. L. Evans, Rev. and Mrs. E. L. Holladay, Mr. and Mrs. J. I. Freeland, Mr. Walter Hooker, Mrs. L. T. Creech, Sr., Miss Sara Lee Creech, Mrs. P. C. Schoenfeld, Mr. and Mrs. H. V. Draa, Mrs. M. F. Coleman, Mrs. Wilmet F. Hayes, Mrs. Ralph Hopkins and members of the family.

"A bachelor is a man who thinks two's a crowd," Joseph Gancher.

## NEGRO NEWS

## County Council

Fourteen schools were represented at a recent meeting of the Palm Beach County Negro Teachers Council at Palmview Elementary School, West Palm Beach. Mr. U. B. Kinney, Palmview principal, was host at the meeting.

Mrs. Daisy M. Murrell, president, made the following committee appointments: membership, Mrs. Louise Taylor; PTA Magazine, Mrs. Theodora Lovett; program activity, Mrs. Rosa Calhoun, Mrs. J. Hilton, and Mrs. Eliza Davis; budget and finance, Mrs. Woodie L. Dellinger, Mrs. F. Mitchell, Mrs. F. Wilson, Mrs. Pauline Stokes, Mrs. Fannie Potter.

All PTA units were asked to pay council membership fees of \$2. Two new units were registered: Everglades Camp School, and Ritter Elementary School.

A panel discussion, "How to Create Community Interest in All School Projects" was led by Mrs. A. Calhoun and Mrs. M. Hilton.

The next meeting of the council will be held Saturday, Dec. 13, at Carver High School, Delray Beach. Mr. Anthony Holliday is principal.

**County-Wide Drive**  
A county-wide PTA membership drive is being launched to make Palm Beach County Negro schools "100 percent in PTA organization, with county and state affiliations," says Mrs. Daisy Murrell, county president.

## Everglades Vocational

The Science Club of Everglades Vocational High School was organized Monday, Oct. 27. Officers for this year, 1952-53, are as follows: President, Earl Shine; Vice Pres., Willie Reese; Secretary, Helen Allen; Asst. Sec'y, Vernell Limbin; Treasurer, Levi Nelson; Chaplain, Alice Humphrey; Sergeant-at-Arms, John T. Williams; Business Manager, Willie Griffin; Reporter, Roby L. Washington. Frank Coleman and Christine McCants were elected chairman of the social committee and project committee respectively. This club will hold its meetings every first and third Monday.

The N.H.A. of Everglades Vocational High School started out with great enthusiasm this year along with their sponsor, Mrs. E. B. Moore. The chapter has made plans and is anticipating better and more successful programs this year.

The Seventh Grade, sponsored by Mrs. E. B. Moore, was in charge of the assembly program Wednesday, November 3. Little Mae Wright was mistress of ceremonies. Rev. Penson, guest speaker, addressed the assembly on "The Value of a Hobby."

Under the direction of the Florida Forest Service, a Forestry Training Camp is held each year at Camp O'Leno State

Park near High Springs for marking, estimating, and selling Future Farmers of America timber, fire control, and ca. The training camp offers tree identification to insure wise courses to the young farmers woodland management in the in gum farming, farm forestry, future.

## VETERANS INFORMATION AND SERVICE

By Melvin T. Dixon  
State Service Officer

Special provisions to ease the federal income tax for individuals who exchange one home for another are further modified on behalf of persons in military service.

Recent legislation amended the internal revenue law to provide that money obtained by selling a house is not taxable as a capital gain if it is used to buy a replacement within a year before or after the sale of the house. If the replacement is built to order, it must be started within a year after the sale and completed six months thereafter.

The new law expands this provision by adding to the year any active military duty of 90 days or more. This means that a serviceman who sells his home after he reports for military duty need not pay income tax on the proceeds of the sale provided he buys another house within a year after the end of his military service, and provided further that all the proceeds from the sale of the old house are reinvested in the new house.

Two limitations must be borne in mind: purchase of another house must take place within four years after the first house was sold; military service after January 1, 1954, may not be counted toward extending the purchase deadline.

CHEST X-RAYS

(Continued from Page One)  
 colosis Health Association. It is approved by the County Medical Society.  
 Answering the question, "Do I need a chest X-ray?" sponsors say, "Yes, if—" and add five qualifications: "If you've never had a chest X-ray before; if you haven't had one in more than a year; if someone in your family has had TB; if you've known or worked with someone with active TB; or if you simply want to be sure that your lungs are okay."  
 Dr. C. L. Brumback, county health director, says, "Although the Mass Survey is intended chiefly to find unsuspected tuberculosis, the chest X-rays also bring to light certain heart

abnormalities and tumors of the chest area early enough to make effective treatment possible."  
 Mrs. Ruth Shepard, executive director of the Tuberculosis Association points out, "Since early tuberculosis may have no symptoms and since it's catching, a most effective way to protect the public is by mass surveys, when everyone 15 years of age and over checks himself. No matter what the X-ray shows, it's good news. If the person doesn't have TB, that is good. If he does have TB, that is also good to know, since the earlier TB is found, the easier it is to cure."  
 Numerous volunteers will be called on to help with registration at each of the four X-ray units. Others will be asked to

spread the word about the importance of the Mass Survey to the people in Palm Beach County.  
 The schedule for the Glades area has been made as follows:  
 On Nov. 18, from 1 to 3 pm, the mobile X-ray unit will be at Lake Harbor Post Office. Next day, Nov. 19, from 9 to 12 am, it will be at Belle Glade High School. In the afternoon of Nov. 19, from 5 to 7 pm, it will be at Ritta Sugar Camp. Nov. 20, from 1 to 4 pm and 5 to 7 pm, it will be at Okelanta Sugar Mill. Nov. 21, 12 to 3 pm, South Bay City Hall. Nov. 21, from 5 to 7 pm, South Bay Sugar Camp. Nov. 22, 12 to 3 pm, South Bay City Hall again. Nov. 22, 5 to 7 pm, South Shore Camp. Nov. 23, 1 to 4 pm and

5 to 8 pm, Okeechobee Camp; Nov. 26, 8 am to 11 am and 5 to 7 pm, Capeles Camp; Nov. 28 and 29, 10 am to 1 pm and 2 to 5 pm, Belle Glade Chamber of Commerce; Dec. 2 and 3, 1 to 4 pm and 5 to 8 pm, Cotton Club, Belle Glade. On Dec. 16, from 6:30 am to 9:30 am, the unit will be at Belle Glade Prison Farm.  
 "It's free, and it's a good thing to know," Emmet Roberts says. "Mark down one of the dates for your own X-ray."

TWELVE STEPS BY WHICH ALCOHOLICS CAN RECOVER

ALL the rogues of the local scene: Alcoholic Anonymous, we are told, is a new and better way to which an alcoholic finds and maintains sobriety and rehabilitation himself. The steps are: 1. Admit that you are an alcoholic. 2. Believe in a power greater than yourself. 3. Turn your will and your lives over to the care of God as you understand Him. 4. Make a decision to turn your will and your lives over to the care of God as you understand Him. 5. Once having come to believe there is a Power greater than ourselves, it is not too difficult to turn our lives over to that Power. 6. It was explained in the Second Step that as rugged individualists we were rank failures. For ever looking into the future, we were forever disappointed when our plans failed. It is at this point that the Day by Day, or the Twenty-Four Hour plan comes to our assistance. 7. We have found that by giving up planning, by letting each day take care of itself—and it always will—we have been able to control the future. The past is done and can't be changed. And so if we can do a good job this day we are doing the best we possibly can. We start the day by trying to stay sober for just twenty-four hours. We ask assistance from God to stay sober for that brief period. And when the day ends we thank God for the help He has given. And on the next day we do the next we follow the same program. 8. This is the first step in turning our will and our lives over to God as we understand Him. From this small beginning we develop until we find we are no longer drinking, we are no longer trying to turn our own lives and making a sorry job of it.

turkey, and deer populations, more than last year's, are currently estimated at 50,000 and turkeys at 45,000.  
 And favorable weather conditions, particularly in South Florida, have contributed to a high quality population which should offer nirvana to those who like the fields and open flatwoods.  
 Five adds that the prospects for duck shooting are exceedingly good. "Field men in Canada and the northern tier of States report that last spring was one of the best breeding years in the last decade, and early migration reports have shown good heavy flights of these game birds."

SOCIAL SECURITY FURTHER EXPLAINED

Some self-employed people still do not fully understand their rights and obligations under social security. R. C. Gehren, Jr., manager of the West Palm Beach social security office declared today.  
 Because of misunderstanding, Mr. Gehren said, many returns are being filed by persons in the excluded group of self-employed people. Certain professional engineers are not, dentists, architects, and professional engineers are not covered by old-age and survivors insurance.  
 On the other hand," Mr. Gehren added, "returns are not being filed by some who are required to do so."  
 Mr. Gehren says that some people do not know the amount of self-employment income that should be reported for social security purposes. What actually counts towards old-age and survivors insurance are the NET earnings (gross income less allowable business deductions) from a covered trade or business. The NET earnings must be at least \$400 during the taxable year, and no more than \$1600 for the year can be credited to a social security account. In case of a partnership, each partner will include in his NET earnings (gross income less allowable business deductions) of the ordinary net income or loss from the partnership enterprise. If husband and wife operate a business as a genuine partnership enterprise, each will report his or her respective share of the business profits as net earnings, and each will receive social security credit. But if only the husband or only the wife is the sole owner of the business, even though the other helps in the business, then the

owner alone will earn social security credits.  
 Another frequent mistake pointed out by Mr. Gehren, is the inclusion of income not directly connected with the trade or business, such as dividends and interest from stocks and bonds, rentals from real estate (where the self-employed person is not a real estate dealer) gains from the sale of real estate, 350 to 430 with Mrs. Frank Anderson, leader, and Mrs. F. C. White, assistant leader.  
 A Senior troop of girls more than 13 years old will be organized, should enough girls of that age group signify an interest. The troop will meet on Monday night from 7 to 8. All girls 13 or over should contact Mrs. A. B. McCormick, at phone 2830 for further information.  
 "Readers cherish the country weeklies..."—William H. Ruffin, president, National Association of Manufacturers.

Arnold, leader, Mrs. Paul Brackman, temporary assistant leader, and Mrs. Howard Bair, permanent leader.  
 Intermediates age 10 and 11 in fifth grade meet on Monday from 3 to 4 with Mrs. Jay D. Wright, leader, and Mrs. W. D. Matthews, assistant leader. Intermediates, age 12 in sixth grade meet on Thursday night from 7 to 8 with Mrs. Frank Anderson, leader, and Mrs. F. C. White, assistant leader.

There are other misunderstandings, Mr. Gehren said, but the ones listed are the most frequent and the ones in which most of the errors occur.

**REMEMBER... CHLORDANE CONTROLS WIREWORMS**  
 FROM PLANTING-TIME THROUGH HARVEST-TIME

Chlordane also controls:  
 Ants  
 Army Worms  
 Bill Bugs  
 Cabbage Maggots  
 Cutworms  
 Male Crickets  
 Onion Weevils  
 Southern Corn Rootworms  
 White Grubs  
 and many others

Proven effectiveness is easy to remember. Chlordane control of wireworms and other insects that live in the soil is a matter of record, a pleasant memory to thousands of farmers who have used it season after season. They also remember the added profits acquired from the sale of crops grown in Chlordane-treated soil. Remember, too, that Chlordane is easy to apply, economical to use, long-lasting in its effectiveness. And don't forget that crops grown in Chlordane-treated soil have been proven to be free of harmful residues. They're easy, too, with all their rich natural flavor, with no chemical taint. Remember that Chlordane really controls soil-infecting insects, protects crops, insures a harvest free from insect damage.

Order your Chlordane now for the planting time ahead. Insure future memories of crop protection and harvest time profits with Chlordane.

FOURTH STEP

Made a searching and fearless moral inventory of ourselves.  
 AGAIN we come to a step that requires courage. One of our chief reasons for drinking was to escape from ourselves. We were afraid of our own thoughts and knew we could escape from them through alcohol. We were afraid to face facts. We were afraid of our jobs, afraid of our families, afraid of responsibility. And we were afraid of thinking about them.  
 So having fortified ourselves by taking the major hurdles embodied in the first three steps, we find the time has come to actually do something definite about our problem. So very much like a bather diving into an icy lake we plunge into an inventory of ourselves.  
 And what do we find? We have been dishonest. We have lied. We have cheated. We have broken hearts. We have stolen. We have slandered others. We have let down employers, friends and families. We have indulged in extra-marital activities. We have cursed God and man. We have broken faith. We have smashed most of the laws of God and man. In all, we find that we are pretty sorry, miserable individuals. And every one of these facts can be traced back to alcohol.  
 To continue the inventory, we consider our physical selves, finding that health is impaired, memory is faulty, appearance is becoming more careless and slovenly, finances are at a low ebb. And having honestly taken ourselves apart we wonder how on earth people have put up with us all this time.  
 It is a brave act to dissect ourselves thus. But we are fully compensated in the great feeling of satisfaction we experience in having at last squarely faced the issue. No man in his right senses wants to continue in the manner when he finds out that is wrong with him, so we logically come to the Fifth Step.  
 (To Be Continued)

GOOD HUNTING SEASON AHEAD

Prospects for the 1952-53 hunting season are better than they have been in several years with some good and diversified hunting ahead, reports Earle Frye, assistant director of the Game and Fresh Water Fish Commission.  
 A good acorn crop in 1951 has helped push Florida's squirrel,

**"The shortest route to Alaska?"**

Experienced as he is in telling motorists how to reach Miami or Mammoth Cave, he couldn't give you this information. But he can get it for you quick, and without cost.

Any Standard Oil dealer will be glad to give you a postage-paid card, which you can mail to Standard Oil Company for free routing of your motor trip, to anywhere in the United States, Canada or Mexico. By return mail, you'll receive marked pictorial maps, showing the best and shortest route to take.

Since its establishment back in 1929, Standard Oil Touring Service has routed over a million trips for motorists. Free trip-routing is another of the many extra services offered by your Standard Oil dealer.

**Tops all pickups!**

Think of every feature you've ever wanted in a pickup truck. Then come in and see International. You'll find them all. You'll find them right. And you'll find more besides.

Here's a real thoroughbred truck engineered to serve you economically for years. A sweetheart to handle and park. With the pep and power of a rugged valve-in-head engine that's downright stingy on gas.

This is all yours in International—the pickup that tops 'em all.

- **International light-duty trucks**—1½, 2, and 4-ton sizes, 115, 127, and 134-in. wheelbases. Body types include pickup, stake, panel, Metro, utility and others.
- **Real truck engines!** Silver Diamond valve-in-head engines are truck engines through and through! Extra power when you need it. But here's the payoff: They're real gas misers, too!
- **Man how they handle!** International has really taken the work out of truck driving with its new super-steering system. Wider front axle makes possible full 27° turning angle for easier handling and greater maneuverability.
- **Real driver comfort!** Because it was designed by drivers for drivers, the Comto-Vision Cab is the roomiest, most comfortable cab on the road. The seat holds three with ease. The look-out-the-one-piece Sweepstake windshield for perfect visibility. New green-tinted, non-glare safety glass available.

Better roads mean a better America

To get the right International light-duty truck for your job, come in and talk things over—
